

## Request for Infection Prevention Measures (Until January 11th)

### 1. Be careful when returning home

- Refrain from returning home as much as possible  
Don't travel, especially when you have symptoms such as a fever.
- Consider staggering or postponing travel home
- Make sure to carry out basic infection prevention measures
- Refrain from dining with a large number of people, including relatives
- Be cautious not to infect the elderly

## Request for Infection Prevention Measures (Until January 11th)

### 2. Stagger New Year's shrine visits

- If you have symptoms such as a fever, refrain from shrine visits
- Take measures to avoid crowded times of the day, including avoiding the three Cs
- Refrain from talking loudly, while eating or drinking
- Pay attention to the information provided at the shrine you're visiting

## Request for Infection Prevention Measures (Until January 11th)

### 3. Thoroughly prevent the transmission during eating and drinking

- Plan to finish at or before 9pm when having a meal with people inside and outside of Kyoto City.
- Eat together only with people who are a part of your family or live with you.
- Plan to limit the number of people to 4 persons (except your family who lives with you), and keep the length to 2 hours or shorter
- Refrain from attending when you have a fever, cough, etc.
- Visit shops that display the sticker created by the Guideline Promotional Kyoto Congress to indicate facilities that properly comply with guidelines.

## Request for Infection Prevention Measures (Until January 11th)

### 4. Avoid nonessential and non urgent travel

- Refrain from going out to areas such as Osaka Prefecture, if it is nonessential or non-urgent.
- Reconsider its urgency when you travel within Kyoto Prefecture.

### 5. Prevent transmission at work

- Encourage staggered holidays
- Encourage more individuals to work from home, or to stagger work hours.
- Reconsider the necessity of holding events, such as annual year-end parties, New Year's gatherings, etc.
